

Microphone

TS-548MD

Feature:

- * High-quality professional condenser cartridge and suppression circuit, super cardioid polar pattern and high sensitivity.
- * With switching noise cancellation circuit, the microphone can achieve ultra-quiet effect when it is turned on and off.
- * Elegant and unique appearance design, a high-level professional microphone suitable for various high-end conferences, public address, speeches, etc.

Specification:

Model	TS-548MD
Transduction method	Condenser microphone
Frequency response	40Hz-18kHz
Directivity	Super cardioid polar pattern
Output impedance	75Ω
Sensitivity	-45dB
Maximum input volume	135dB sound pressure
Dynamic range	109 dB, 1KHz
SNR	70 dB
Power voltage	Phantom + 48V power supply
Microphone pole	200mm
Microphone weight	0.6kg
Others	Iron base, resistant to interference of mobile phone, electromagnetic, and high frequency
